

Web Protection Policy and Usage Control Filtering

What

SkinnyOffice Web Protection provides your organization with a highly advanced solution for URL categorization monitoring, enforcement and filtering to ensure the integrity of your organization's policies.

Why

Our solution delivers acceptable-use internet enforcement, helping you to control network usage, meet compliance regulations, and protect your brand and reputation.

How

We automatically identify and block your employees from reaching dangerous, socially, morally or personally objectionable content on the internet; effectively limiting your liability, while maximizing employee productivity.

Choose your own Adventure

The following table contains an alphabetical listing and descriptions of the standard categories we use to classify and either allow or block websites within a particular category. By default, we BLOCK all categories so if you would like to un-block a specific category then please designate it on the left as allowed. You may also define any black or white list URL's at the end of this form. If a URL is white listed, then it will be accessible even if it occurs within a "Blocked Category". If you designate a URL as Black Listed, then it will not be accessible.

Allow	Department Individual	Category	ID	Code	Description	Example URLs
		Adult	adlt	1006	Directed at adults, but not necessarily pornographic. May include adult clubs (strip clubs, swingers clubs, escort services, strippers); general information about sex, nonpornographic in nature; genital piercing; adult products or greeting cards; information about sex not in the context of health or disease.	http://www.adultentertainmentexpo.com http://www.adultnetline.com
